IF WE CAN'T REACH YOU... WE CAN'T ALERT YOU.

Fires. Road closures. Gas leaks. How will you find out about countywide emergencies and disasters?
Your safety is our top concern. Early warning helps save lives and property. That's why Beaver County wants to make sure you know about emergencies and disasters as they happen.

Beaver County **will use the Everbridge SmartGIS System to let you know about issues that may affect your safety.** The Everbridge system will allow Beaver County to contact thousands of residents in seconds so you find out about an emergency right away.

Receive important messages from the County on your phone, email, and more.
Everbridge SmartGIS System can deliver messages to you any way you want—on your home phone, cell phone, email, and more. This way, we can reach you in any emergency. We may also use the system in non-emergency situations to let you know about important County-related events, such as meetings, parade closures and etc.

How does it work?
The process begins when the County issues a message about a potential safety hazard or concern. Messages will be sent to all standard voice and text communication devices, including listed land line phones, cell phones, e-mail, and more. If you don't confirm receipt of the message, the system will try to reach your second contact number or email. The system will continue trying to contact you until it receives a confirmation from you.

1. Wildfire starts, threatening area homes and businesses.

2. County accesses the Everbridge SmartGIS System to notify residents and businesses.

3. System starts contacting thousands of residents instantly by phone, text messaging, email, and more.

4. Recipients receive instructions for safety precautions and evacuation.

I signed up before. Do I need to do it again?
